Loving the enthusiasm of the author/narrator a lot! Jump to ratings and reviewsAn internationally recognized authority on cellular biology takes listeners on an in-depth exploration into the microscopic world, where new discoveries and research are revolutionizing the way we understand life, evolution, and consciousness.Science Nonfiction Psychology Audiobook I've been recently diagnosed with very rare genetic disorder and since my diagnosis read and listened to a number of relevant books. It confirms again that we aren't predetermined by our genes and we can change expression of our genes and the energy is what really matters. This one belongs to my favourites. I can't compare at the moment. Lipton's other performances? How does this one compare? Loving the enthusiasm of the author/narrator a lot! 100% Sounds True Guarantee We stand by our products » In the tradition of Carl Sagan, Rachel Carson, and Stephen Hawking, a new voice has emerged with the unique gift of translating cutting-edge science into clear, accessible language: Dr. Bruce Lipton.
